**0725/26 Clerks report on matters outstanding:**

**Ref 0324/66 Update:** b) **Speed Limit reduction:** **Update:** LCC Highways currently in the process of arranging the installation of the new speed limit signs on West Lane (30mph) and B1225 - Silver St (40mph). **Update: 04/02/2025:** *'Highways team have surveyed the area alongside the new TRO plans and can arrange the following when the new speed limits signage is installed. The Village Name Plate and the Wolds sign will be moved together to make a gateway effect at the south end of the village. This will minimise the number of posts here and neaten the area. The other new Village Name Plate will be moved to the north end and put with the new speed limit signs. These works do take some time, so we expect these to be completed within the first*

half of the year'. **Update: 25 June 2025** New 30mph & 40mph speed limit signs installed on West Lane & B1225 - Silver Street as detailed above.

**Update: 0724/27 . Public Participation item a)** Resident of Silver St Baumber - B1225 raised significant concerns regarding speeding traffic causing noise and threats to resident's safety, whilst walking and accessing their properties on the narrow footpath, which is only wide enough for one person. This narrow footpath is in a poor condition and is caked in mud and debris from the spray of water and muck from fast moving traffic, which has built up over a long period and exacerbated by the repeated flooding of part of Silver St. The spray is also splattering over the walls, front doors and windows of those properties with no front gardens and directly adjacent to the road surface RF. - Agreed to initiate works to improve condition of footpath which was agreed to be essential. Update: 23 October 2024. Cllr Bradwell advised meeting that the works are in hand but there appears to be an issue with the limited width of the footpath which is not compliant with current Highways regulations. Jan 2025 Cllr MJ & Clerk Observations. LCC Highways have undertaken repair patching of small areas of footpath in front of the row of houses adjacent to the road surface. 21/05/2025 Cllr N Oliver agreed to chase improvement works to clear footpath to improve access and amenity.

**0725/27 Update: 0525/20 (Minor Items).**

Cllr's M Baverstock & C Cuttall raised concerns regarding the rapid deterioration of the newly resurfaced Footpath No 90 by LCC. Cllr N Oliver has raised the matter with LCC. Clerk submitted report on 27 May & received a response confirming the matter has been referred to the contractor.

**Update ref: 0524/15** -1022/50 B1225/A158 junction permanent street lights switch off. LCC Highways confirmed existing A158 redundant lights (29-43) to be removed, Clerk received the following response 28/05/2024:

*'Your ongoing concerns about the impact of switching off the lights at the junction are noted. As previously indicated, this is necessary to allow for the removal of the lights already switched off in the vicinity as a part of the Street Lighting Transformation project in 2016/17, as they are all on the same cable system.*

*As a result of a swift response from LRSP, with no concerns being raised by them, and in order to make the change during the shorter nights, we have this morning been informed that the lights in question were in fact switched off last week on Thursday 23 May 2024. We can assure you that we will now be monitoring the impact of this using information from LRSP and no permanent removal of any of the columns will take place for at least twelve months. Matter for review May/June 2025 to chase.*
